TAYLOR & CRATE, INC.

YEAGER LUMBER COMPANY, INC.

BUFFALO carries a larger stock and a larger variety of hard woods than any other market in the world.

BUFFALO with its 15 railroad lines and barge canal and Great Lakes is the ideal point for distribution of lumber.

BUFFALO has 75,000,000 to 100,000,000 feet of dry hard woods ready for immediate shipment.

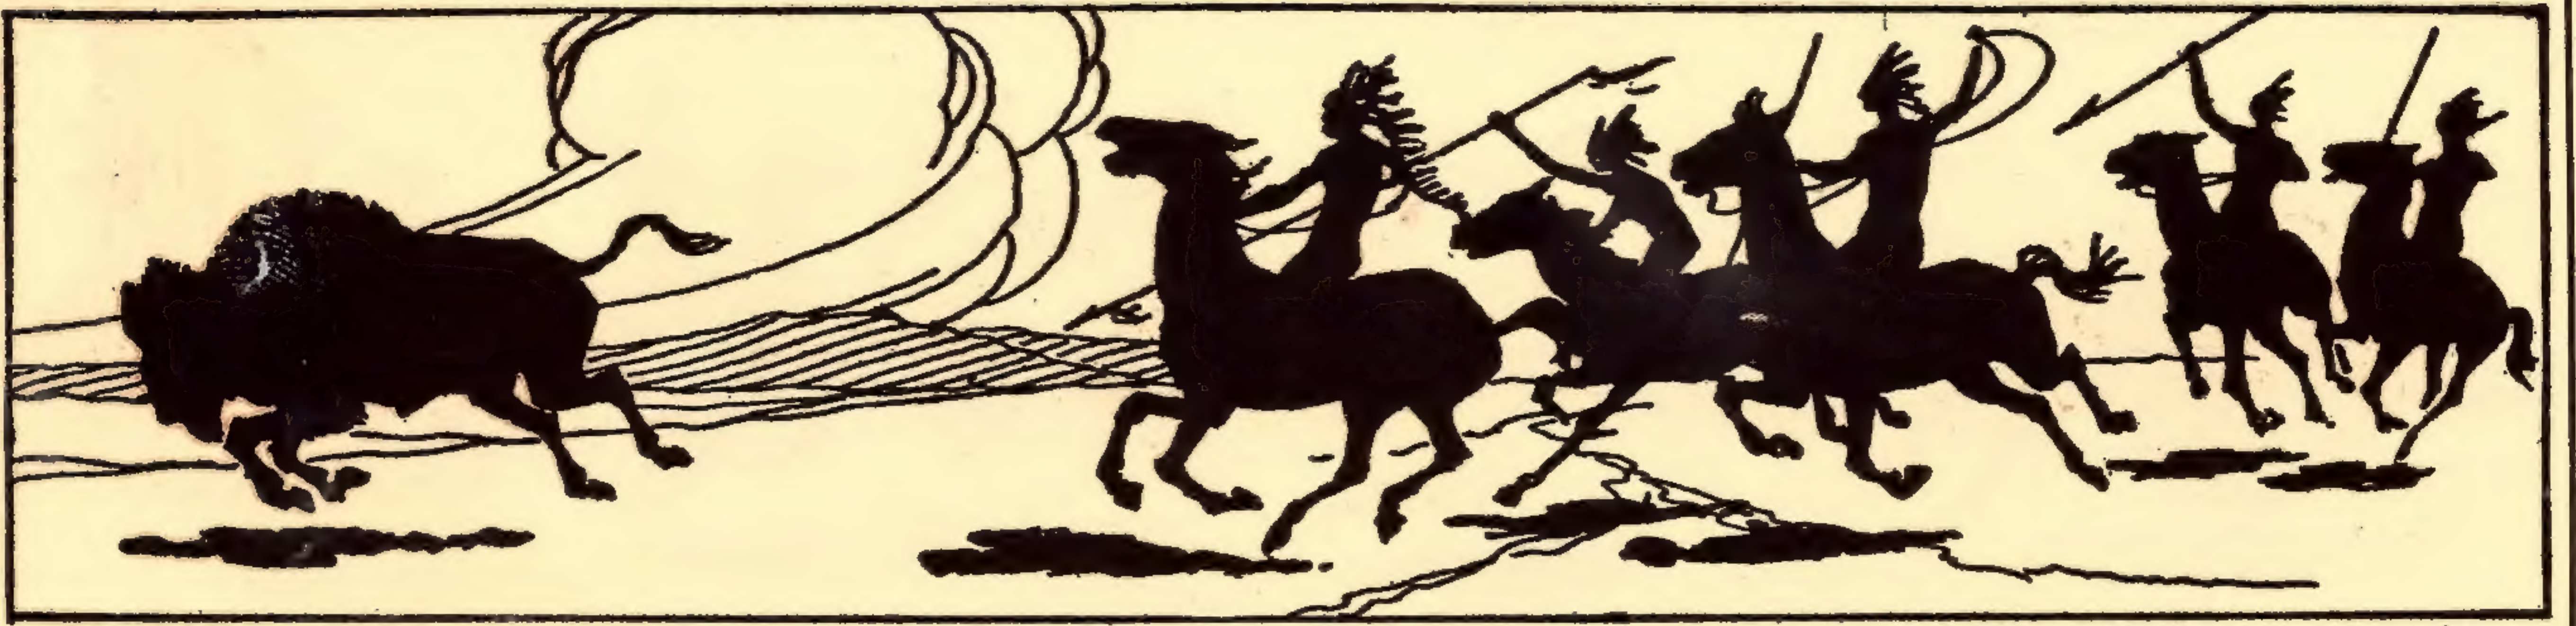

BUFFALO with its 15 railroads can always ship stock quickly. Over one-half the population and two-thirds the industry of the United States and Canada is within fifteen hours by rail from Buffalo.

BUFFALO with but eight months season of navigation is the fourth largest water port in the world in tonnage. Over 40,000,000 feet of lumber and 80,000,000 shingles came down the Lakes alone into Buffalo Harbor last year.

BUFFALO is the western terminus of the Barge Canal, which transported last year 248,930 tons of forest products equal to 130,000,000 feet of lumber, an increase of 30 per cent over 1919. Five lumber concerns already have their barges operating on the canal.

BUFFALO is one of the largest railroad centers in the United States. A steady stream of loaded cars arriving in the city makes it possible for Buffalo dealers to load such cars for customers and make quick shipments on through rates.

DO YOU KNOW THAT

BUFFALO has the best harbor on the Lakes

BUFFALO has the largest armory buildings in the world

BUFFALO has the largest intracity lock in the world

BUFFALO has the largest military regiment in the world

BUFFALO has the largest unit pumping station in the world

BUFFALO has the largest breakwater in the world

BUFFALO is the largest linseed oil center in the world

BUFFALO has more asphalt pavement than any other city in the world

BUFFALO has the largest grain elevator in the world

BUFFALO has the largest automobile club in the world

The BUFFALO-Niagara Frontier furnishes the greatest water power in the world

The industrial center of the country is moving westward, and for the next ten or fifteen years, BUFFALO will be the hub.
